Year	Value
2010	100
2011	105
2012	110
2013	115
2014	120
2015	125
2016	130
2017	135
2018	140
2019	145
2020	150

The following table shows the results of the regression analysis. The dependent variable is the natural logarithm of the number of employees. The independent variables are the natural logarithm of the number of sales, the natural logarithm of the number of assets, and the natural logarithm of the number of employees. The results show that the number of sales and the number of assets are positively correlated with the number of employees, while the number of employees is negatively correlated with the number of employees.
