

## MISSION

# Multi-modal Inclusive Smart urban mobility SolutIOns

**This project is supported by the Interreg IPA ADRION programme under the Interreg Funds (European Regional Development Fund and IPA III)**

MISSION project aims to enhance urban mobility by integrating public transport services with shared vehicles, cycling and walking pathways, in order to make travel experiences seamless and more attractive. A Smart-App able to offer “door-to-door” customized travel solutions and information about level of service and safety will be designed with the active involvement of citizens and transport operators. By leveraging transferable modeling techniques, the App will be tested in several cities of the Adriatic-Ionian Region.

### MISSION

# Multi-modal Inclusive Smart urban mobility SolutIOns / Multimodalna, inkluzivna, pametna rješenja za urbanu mobilnost

## Projekat podržava Program Interreg IPA ADRION kroz Interreg fondove (Evropski fond za regionalni razvoj i IPA III)

Cilj projekta MISSION je da unaprijedi urbanu mobilnost integriranjem usluga javnog prevoza sa zajedničkim korišćenjem vozila, biciklizmom i pješačenjem, kako bi kretanje gradom bilo privlačnije i bez prekida. Razvijamo pametnu aplikaciju za dobijanje optimalnih rješenja i informacija o onome što je potrebno korisnicima za putovanje od vrata do vrata, ali i o nivou usluge i bezbjednosti. Aplikaciju pripremamo uz aktivno učešće građana i prevoznika. Korišćenjem tehnika modeliranja koje se mogu prenositi drugima, aplikaciju ćemo testirati u nekoliko gradova Jadransko-jonske regije.
